Bottom Right: Bluestone [Modular]

Bluestone [Crazy Paving]

Bluestone [Sawn]

## BLUESTONE

- +
- We could use an organic stepper for the pathway (to allow planting between stones), then use a sawn surface externally (ensuring a non slip finish) and then carry through the same size tile internally but with a honed finish (enabling a softer feel under foot).

 Left: Bluestone [Honeycomb + Square Edge Coping]  
 Below: Bluestone [Rebated Coping]

Bluestone [Organic Steppers + Honed] [06]

## BLUESTONE

+ Bluestone organic steppers work with the natural shape of the boulders. They're a great way to link hard and soft landscaping areas.

Bluestone [Honeycomb] [07]

Bluestone [Custom Drainage Grate] [08]

Bluestone [Crazy Paving] [09]

# Continuity from inside to out

+ Bluestone's neutral tones enable it to work well with any colour palette whilst still having a life of its own.

Bluestone [Honed] [12]

# COMMERCIAL APPLICATIONS

Bluestone has a strong tradition in both Australian and European architecture, and is used in residential and commercial projects alike.

Similar to granite, bluestone is a form of basalt or igneous rock that has formed and hardened over millions of years. It is extremely dense and hard wearing, enabling it to be used in the most vigorous applications.

## Sizes

---

### Tiles

400x400mm, 20mm  
500x500mm, 20mm  
600x300mm, 20mm  
600x600mm, 20mm  
800x400mm, 30mm  
1000x500mm, 30mm

### Crazy Paving

Various sizes: 20mm  
Organic Steppers: 30mm

### Single Bullnose Coping

500x350mm, 30mm  
600x350mm, 30mm  
800x400mm, 30mm  
1000x400mm, 30mm  
1000x500mm, 30mm

### Square Edge Coping

500x350mm, 30mm  
600x350mm, 30mm  
800x400mm, 30mm  
1000x400mm, 30mm  
1000x500mm, 30mm

### Rebated Square Edge Coping

800x400mm, 30mm body,  
75mm face

These sizes are a range guide only as we tend to custom manufacture as per project requirements.

These stones have very low water absorption and are all salt resistant.

Given the high level of dimensional accuracy, typically these tiles can be laid with a suitable tile adhesive.

Alternative textures can also be created for a project.

Tile thickness requirements may be affected by the surface texture selected.

Weight per m<sup>2</sup> for 20mm tiles is approximately 64kg/m<sup>2</sup>

For further information, installation tips and pricing please call a showroom on 1300 13 14 13.
