Cotto has been used as a primary building material throughout the ages. The rejuvenation of Cotto both in Australia and worldwide is testament to the longevity of clay based products as a flooring alternative.

Our Antico range is handcrafted and air dried using traditional techniques providing a soft textured feeling underfoot.

Each year our Antico range is handcrafted and kiln fired by a small Italian family manufacturer. These ranges offer a real sense of history and artisan craftsmanship. We like to think of it as “slow flooring”.

+ Listello tiles can be used in a wide variety of patterns.
