+ Sandstone is an easy stone to work with on site by hand.

+ The strata layers of Sandstone present a unique and varied colour profile, bringing light and movement to an area.

Dooralong

Dooralong

A photograph of a stone wall with a waterfall. The wall is made of irregular, light-colored stones. Water is cascading over a metal grate into a swimming pool. The pool is surrounded by a concrete deck and has a glass safety fence. In the foreground, there are concrete steps leading down to a grassy area.

A classic  
much loved  
Australian  
stone

SANDSTONE

+ These sandstones come from large blocks which means we can fabricate a wide array of custom sizes and coping detail.

Dooralong

Peats Ridge

[04]

**SANDSTONE**

+ These stones are sourced from huge blocks enabling large sizes for a more striking floor design.

Dooralong on floor, Peats Ridge on wall

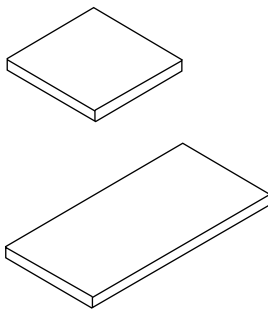

High  
impact  
large  
format  
tiles

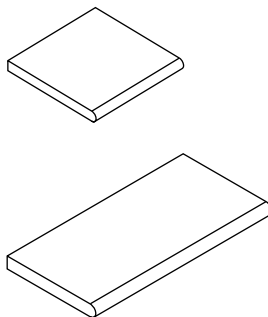

Sandstones are a timeless medium that have been utilized worldwide but also have a very strong heritage in Australian design. What's more, centuries of climatic exposure have tested and proven the durability of these stones as a prime building material.

## Sizes

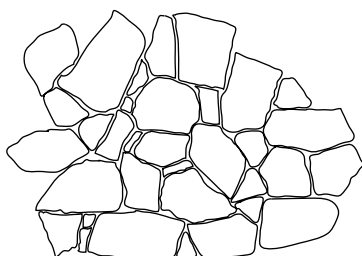

### Tiles

### Single Bullnose Coping

### Crazy Paving

### Almond

#### Crazy Paving

Irregular Crazy paving, 30mm

#### Peats Ridge and Dooralong

#### Tiles

500x500mm, 30mm
