NATURAL TIMELESS APPEAL

Most of our limestone range has subtle colour movement and tonal change and particular shades can be pulled out and coordinated with the associated architecture with ease. Our limestones are sourced from across the globe so our range of tiles presents varying colours and textures. All the pavers and tiles in our limestone range are ideal for use internally and externally for residential and commercial projects alike. Limestone is an ideal material to create a seamless transition from inside to out.

Each of our tiles comes in a tumbled finish to enhance the inherent characteristics of the natural stone. This aged appearance provides a real sense of history and permanency. Even newly laid stones feel as if they've been there forever. The texture and density of limestone makes it ideal for many outdoor surfaces such as pools and stairs.

Stone can be left in its raw state or it can be polished to varying degrees depending on the application. Saw-cut stone has a rough finish and is most appropriate for exterior features in garden and landscape design.

Modular pattern tiles come in pre-mixed crates.

Tiles are ideally best laid on a tile adhesive over a concrete slab. Refer to installation tips for further information.

605x400mm and 764x500mm tiles can be cut on-site for use as vertical risers when installing step treads.

For further information, installation tips and pricing please call a showroom on 1300 13 14 13.
