## NATURAL SHADING AND TEXTURE

Stone Wall panels present a natural, open-cut and irregular surface texture which provides a profound link between architecture and the surrounding landscape design. They can be used to recreate the robust characteristics of traditional ledge stones.

Our Stone Wall Panels range features an array of colours to suit any environment and are a cost-effective approach for integrating natural stone into a project.

We provide interlocking corner units and capping options which make the Stone Wall Panels ideal for a range of residential and commercial landscape and building projects.

<b>Corners</b> Interlocking corner elements  Double corner tile 610x152mm Thickness 20-50mm *Custom sizes available on request	78	120 units	<b>Corners</b> Interlocking corner elements  Double corner tile 610x152mm Thickness 20-50mm *Custom sizes available on request	78	90 units
			<b>Capping (excluding Macedon)</b> Split on top surface, chipped on the long sides and sawn on the bottom surface Length 600mm Width 290mm Thickness 30-50mm		

Typically these products are adhered to a concrete or block wall with a suitable tile adhesive. Use of mechanical fixings may be required. Corner details are slightly different for each stone type. When working out quantities required for a wall, you need to know the face in m<sup>2</sup> to be covered. For further information, installation tips and pricing please call a showroom on 1300 13 14 13.
