## WORKING TOGETHER TO ACHIEVE A BESPOKE IMPRESSION

Our Granite range offers an endless array of custom possibilities. The extraction method of the raw natural material allows us to consistently explore one-off finishes. Large granite blocks can be shaped to form unique counter tops, basins and baths.

The most satisfying job-specific results come from close collaboration with clients, early in the genesis of a design project. This is especially true of commercial projects where a unique look is desired. Our Granite range offers a multitude of colours, textures and formats while the dense and hard-wearing character of the stone make it appropriate for almost any application.

Think a split finish granite cobblestone for the driveway surface to offer maximum grip, a bush hammered granite paver outdoors to ensure a non-slip surface. Then carry through the same sized granite tile internally with a honed finish for a sleeker feel underfoot, creating continuity from inside to out.
