A CURATED SELECTION

The addition of wood flooring products extends the Eco Outdoor® range of architectural surfaces to cater for a range of project needs beyond natural stone whilst also working incredibly well alongside it.

The curated selection consists of three finishes and ten colours.

Two products are available as solid oak. Montague, a deep grey in an antique finish, and Perla, a light grey variety in a distressed finish and Chevron format.

The other products available in the distressed finish include Lady Gray, Lunar, Summerhouse, and Viking; and in the heavily distressed, or brushed finish, Haybale, Mountain Ash, Smoke Stack, and Willow.

Produced by a French supplier with extensive experience in the art of aged oak, the product displays a beautifully aged patina that is achieved by utilising an age-old technique and avoids the use of synthetic colouring agents.

A classic combination of three widths and lengths is available and combined adds to the traditional appearance of the wood products.

Our approach to materiality has always encompassed the notion of natural beauty and beauty in imperfection and this new range of timber flooring embodies exactly that.

HEAVILY DISTRESSED

Haybale

Smoke Stack

Mountain Ash

Willow

DISTRESSED
